HOW DOES THE PROCESS WORK?

PRE - WEDDING CONSULTATION

Once your booking is secured, we will have a Pre-Wedding phone-call consultation. This is where we get creative and discuss ideas so that we can start to get a vision of what your painting will be like on your special day.

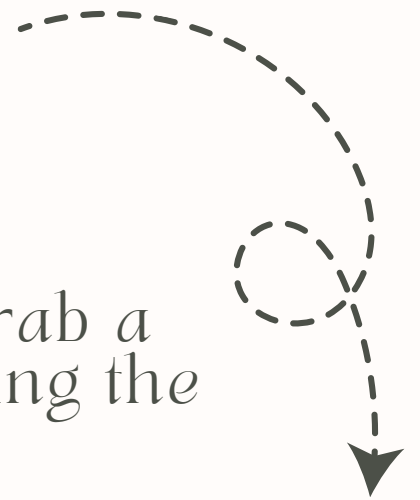

WEDDING DAY - MY ARRIVAL TIME

On the day, i will arrive 2 hours beforehand to set up and get started on the background. This way, later on your guests will be able to see a developing picture of the special moment.

WEDDING DAY - DURING AND AFTER CEREMONY

During the ceremony i will continue to paint the scenery. When you are ready for photos i will grab a couple of photos of the newly weds and start using the photos for reference.

WEDDING DAY - COCKTAIL HOUR/ RECEPTION TIME

By the time cocktail hour ends and your guests are coming into the reception area, they will see me painting your wedding portrait, and they can watch as the painting develops throughout the evening. Also the guests are welcome to add their touch to the painting if they wish. (optional)

WHAT HAPPENS AFTER THE WEDDING

Before i leave I will show you the painting before I take it home with me to add finishing touches and to be varnished. You will then receive your finished painting around 1-2 months after the special day via post. You will find a certificate of authenticity and signed to confirm that this is an original painting.
